

External USB 7.1 Channel Sound Box

AA1570

Black Color

The external USB 7.1 Channel Sound Box provides an amazing audio accessory for computer with a USB port. It is equipped with standard input and output connectors to add great stereo performance. The sound box not only combines high quality audio recording and playback capabilities but also allows the connection of most popular audio gear such as microphones, home stereos, musical instruments, amplifiers and powered speakers to your computer with USB ports. It is easy to add stereo 7.1 Channel sound effects to your computer by simply installing plug-and-play operation for PC and Mac.

Note: For Windows® XP, Windows® Vista, Windows® 7 and Windows® 8 users only. The valued driver can support Xear 3D™ to enhance your video gaming experience with improved sound quality. Furthermore, the fantasy magic voice and karaoke functions provide you with additional fun in karaoke parties. You can change the atmosphere by choosing environment sound and the room size can be also selected.
