

# USB 3.0 to 4K HDMI Adapter

**AN38C0**

The USB 3.0 to 4K HDMI Adapter is a device which enables connection to 4K Ultra HD display device to a computer using USB 3.0 port. It will make your legacy PC with old graphics card to support 4K resolution easily. Besides, with this convenient design, it can connect up to 6 display devices to a computer without installing extra video cards. Simply install the driver, and plug in the USB adapter, the connected monitor will be enabled without the need to reboot the operating system.

System performance is an important issue when using multiple monitors. Another benefit of this adapter is that it occupies little computer resource; ensuring users get quality display without comprising computer performance.

\* Incorporates HDMI® technology.

## System Requirements

Operating Systems:
