

VGA to HDMI Dongle

AV3000

The VGA to HDMI Dongle is a high performance single port dongle, compliant with the VGA standard. The product allows the user to convert and transmit the video signals from the VGA embedded device, such as laptop, smart phone, tablet or PC, to the HDMI embedded device, such as projector. In addition, the dongle is capable of receiving the audio signals along with the VGA signals. Last but not least, slim design makes the dongle handy to carry and brings the user great mobility experience.

* Incorporates HDMI® technology.

Specifications
