USB 3.0 Dual 4K Dock

The USB 3.0 Dual 4K Dock is designed for extra connectivity demands. With the docking station, you can extend the connection of a computer to more USB peripherals, Ethernet network, the speaker and the microphone through one single USB cable.

With the built-in USB 3.0 ports, the docking station enables you to enjoy the super speed data transmission between USB peripherals. Aside from USB 3.0, this product is compliant with USB 2.0/1.1 specification.

In addition, the outstanding USB 3.0 docking station is capable of dual 4K20p60 video outputs or single 5Kp60 video output, with only one USB 3.0 cable connected to your legacy laptop PC. With the DP port, you can mirror your primary screen, or extend the Window desktop allowing visibility of more applications at the same time. Enhanced expansion capability, this docking station with video is the most versatile accessory that also complements your home or office space.

*Incorporates HDMI® technology.

Features

- The best compatibility compared with others embedded non-USB solution
- Dual 4K or Single 5K video output
